

Triumph Coin WHITEPAPER

Abstract

Triumph Token (TRH) is an innovative cryptocurrency designed to address liquidity challenges faced by users when withdrawing fiat currency. The Triumph Project aims to introduce a fintech application by September 2024, known as Triumph Insta Cash, which allows for seamless conversion of tokens into fiat and facilitates fast transfers to Visa or Mastercard-enabled cards with minimal fees. Additionally, Triumph offers staking opportunities with lucrative rewards, a unique NFT collection, and a sustainable tokenomics model backed by smart contracts and revenue from the Casino and Betting industry. This whitepaper provides an in-depth overview of Triumph Token, its features, utility, and roadmap for development and adoption.

Triumph Insta Cash: Revolutionizing Fiat Withdrawals

Triumph aims to revolutionize the way users withdraw fiat currency by introducing Triumph Insta Cash, a fintech application slated for release by September 2024. This app will operate similarly to popular financial market apps like Western Union or Revolut but with lower withdrawal transaction fees. Triumph Insta Cash allows users to:

- Convert tokens into fiat (supporting over 40 cryptocurrencies).
- Transfer funds seamlessly to Visa or Mastercard-enabled cards.
- Bypass KYC/AML processes for quick and hassle-free transactions.

Unique Features

1. NFT Collection

In December, Triumph plans to launch an NFT collection featuring memorable crypto moments from 2024.

2. Staking Rewards

Triumph offers staking with various advantages and bonuses:

- 1-month stake generates 6% APY with locked tokens.
- Longer stakes offer higher APY and additional perks like free subscriptions to Spotify, YouTube Premium, or Netflix.

3. No Vesting or TGE Period

Triumph provides customers with the freedom to buy or sell tokens without restrictions, ensuring a seamless trading experience

TRIUMPH Roadmap

1

Phase 1:

- Develop the Triumph Token (TRH) smart contract.
- Initiate the private sale offering 10,000 TRH at \$0.001 per token.

2

Phase 2:

- Launch the first stage of the presale offering TRH at \$0.003 per token.
- Commence the second stage of the presale offering TRH at \$0.005 per token.
- Begin development of Triumph Insta Cash fintech application.
- Focus on token-to-fiat conversion and card transfers.

3

Phase 3:

- Launch the staking platform with APY rewards and subscription bonuses.
- Implement unrestricted trading for TRH tokens without vesting or TGE periods.
- List Triumph Token (TRH) on major exchanges such as PancakeSwap, ApeSwap, Gate.io, CoinEX, LCX, and Uphold.

4

Phase 4:

- Launch beta version of Triumph Insta Cash for trial period.
- Release the NFT collection featuring memorable crypto moments from 2024.
- Prepare for the launch of the staking platform with rewards and bonuses.

5

Phase 5:

- Activate the token buyback and burn mechanism to enhance token value.
- Ramp up marketing efforts to promote Triumph Token and engage with the community.
- Forge strategic partnerships with other blockchain projects and fintech companies.
- Focus on global adoption and expansion into new markets.
- Explore additional features and services to enhance the Triumph ecosystem.
- Transition towards community governance and decentralization.
- Empower token holders to participate in decision-making processes.

Conclusions

Triumph Token introduces a groundbreaking solution to liquidity challenges in the cryptocurrency market. With Triumph Insta Cash, innovative staking rewards, a unique NFT collection, and a robust tokenomics model, Triumph aims to create value for its users and establish itself as a leading player in the blockchain ecosystem.

Proof of burn is one of the several consensus mechanisms implemented by a blockchain network to ensure that all participating nodes come to an agreement about the true and valid state of the blockchain network. This algorithm is implemented to avoid the possibility of any cryptocurrency coin double-spending.

Triumph Insta would be available in the middle of January 2025, developed both for Android & IOS devices. The estimated price of the apps is \$8. The App provides to aim fast transfers from 40 Cryptocurrency pairs to Fiat via Credit Card with small fees of just \$0.50 per transaction.

There is no KYK/AML required for transactions under totally less than \$5,000 monthly. (Dollar, Euro, Pounds, Swiss Francs)

Customers interested in using the Triumph Insta Cash app must meet the following requirements before they can proceed with any fund transfer activities.

1. Buying TRH (FIX Amount 10.000TRH)
2. Sent it to a Burn Wallet (address TBC by Triumph Team)

This feature will contribute to stabilizing the price of Triumph Coin in the market, increase the coin's deflation, and reduce volatility in price fluctuations.
